

Kringle Private Society *“The Billion Coin”*

A Global Sharing & Eleemosynary Society

Kringle Society Mission Statement

The Kringle Society is a global initiative as a Sharing and Eleemosynary Society founded upon the principle that humanity is capable of lifting itself out of the morass of poverty, disease, lack, limitation, suffering and ignorance into a new dawn of abundance and prosperity for all. We are here to empower each of our members with the means to spread abundance, in all its forms, to the entire community of humanity with a clear plan to eliminate poverty worldwide and to assist each and every being that we touch to find their unique purpose that their Creator intended for them. The Kringle Sharing and Eleemosynary Society is here to support all of its members, and all of humanity, by providing the means and methods to have the support and practical tools so that every member of our society and every human being shall have what they need to make manifest their essential needs to create lives of abundance and integrity.

Kringle is a Sharing Society that has established and will continue to build a Private Contract Association in which men, women and children, of their own free will and volitional act, choose to enter into a private contract relationship with our free association membership. This association is based on the principle of mutual benefit and the interactive sharing of knowledge, ideas and creativity through the use of a private medium of exchange known as The Billion Coin (henceforth “TBC”) and its smaller increment coin known as Kringle. Ongoing support through education and the creation of a private social media platform will support this system.

Our mission is to serve one another with love and respect and to use TBC and Kringle to lift humanity out of hunger, poverty, and misery. It is our intention that the veils of ignorance fall from each that we touch. We intend that all of our members will embrace and have a life full of abundance and prosperity as they accept our offer of membership within the Kringle Society and Private Contract

Association. Within the private environs of our Society, our members can enjoy all the benefits of using a completely private medium of exchange that respects the privacy of all who use it. It is within our power to bring in purveyors of goods and services of all kinds, from every location of the Earth, that accept TBC and Kringle for equal value exchange for their goods and services. We intend that TBC and Kringle shall one day reach their full potential when our community grows to One Billion Verified Members. When this occurs it will unlock the Ultimate Value of TBC. This Ultimate Value will reflect the value of One Billion Members of our Private Contract Association and in so doing we shall realize our vision and goal that the measure of real value in this world shall be the true worth of every living being - men, women and children - who are the true creative potential of humanity in individual embodiments. We hold this as a true mandate and a self-evident truth. It is an Endowment from our Creator however any individual chooses to define or describe such a creative Source. That endowed mandate is that we shall all live freely in creative collaboration with each other and with this beautiful planet we dwell upon. This shall also include living in harmony with the larger Universal community of Life throughout the Cosmos.

Our Mission is Good! Our Mission is Great! It is up to each and every one of us to fulfill it with the realization of this Gift of Life. The Kringle Society has brought forward a unique contribution as a Gift to Humanity in the fulfillment and realization of that vision. Our Vision sees a world free of limitation and our Mission is to be part of the solution that makes it so. This shall be a world in which every child grows up in a community of support, love, respect and integrity, and has the opportunity that every child in this world should have, which is to have all the tools and resources needed to realize their fullest capacities and build a life that each of us would desire for ourselves and our own children.

As a Sharing Society, Kringle is established as a community intended to share the wealth of our lives with each other. This means the personal human value of a Living Being, not the monetized debt enslavement metric that we have been programmed to believe is real wealth. That is an illusion. It is a trap. The Kringle Society has been established with a Vision, Mission and Purpose to break through that illusion and show the world and humanity how we can free

ourselves from the trap. Thus, we have created a currency to flow like the free waters of a mighty river, a river of power and force, a river of Living Beings that come together to see poverty, disease and deprivation forever washed away by such waters and carried to the sea of forgiveness and dissolution so that all men, women and children in this world shall have lives of value, lives of purpose and lives of meaning. We will share with each other the wealth of our life force, the value of our unique capacities to create and build and purify, and we will do it by valuing our currency with the metric of the only real value there is in this world, which is Life. Life means Living In Full Expression by supporting each member of our private society and contract association to achieve their dreams and aspirations. It is our Mission to take the realization of this intention into the greater world society and show others the way of freedom and prosperity without debt, bondage, lack or limitation.

As an Eleemosynary Society we see our Mission as one that brings charitable support to those who need a helping hand in building lives of integrity and respect. This means co-creative sharing and support, not charity that degrades the individual and diminishes self-worth. This is our Mission and this is the Ideal that we shall strive for until it is fulfilled. We envision a world free of constraints where the very stars are our partners and represent unlimited capacities as to what we can accomplish in this lifetime, and for many generations and lifetimes to come. We are a multi-generational legacy trust the true beneficiaries of which are the children of the future, those that are just now coming into life and those yet to be born. Eleemosynary is a word defined by its roots as “Alms Giving”, which in the past meant to give a few coins to the poor and destitute. But we see that “Alm” is the root of Alma, which is Latin for Soul or Spirit, so our charitable giving is of the Soul and Spirit of this Mission Society and its true purpose, which is to bequeath the spirit of unlimited possibilities to the future generations that shall inherit this Spirit and become the Soul this World. We invite all who share this vision to join us in building the true value basis of The Billion Coin (TBC), to add your Life Force to the valuation of one billion coins supported by one billion living souls as a Gift for Humanity, to break free from the chains of debt enslavement and the illusions of lack and limitation, to make TBC what it truly is meant to be, The Brilliant Community of the Kringle Society and of Planet Earth, to enliven the brilliance of One Billion Stars and forever banish the darkness from our world.
